

New “Stan Moberly Fish Habitat Hero” Award

Tom Bigford

AFS, Fish Habitat Section

The Challenge/Opportunity

- AFS Fish Habitat Section leadership inherited idea for major award from Stan Moberly
- FHS wants to honor Stan by naming the award after him
- Now considering options and partners
- Based on shared interests, NFHP is obvious prospect
- Seek NFHP Board interest, guidance, and partnership

Proposed Award(s)

- Top honor (1-2) for lifetime achievement in fresh or saltwater fish habitat
- Could include awards for groups, projects, students, and/or young professionals
- Perhaps annual or semi-annual
- Could be few or more inclusive

Timeline and Next Steps

- Could announce this year and launch in 2019
- Significant financial and administrative responsibilities
- Build on existing awards to ease launch and avoid duplication
- Need a plan soon!

Discussion

- Is NFHP interested in discussing options?
- Is that interest channeled in certain areas, e.g., nominations, award categories and appropriate token (fish carving, certificate, etc.), specific administrative role?
- Assuming interest, can NFHP participate in planning now for 2019 launch? Can NFHP identify a point person?
