

Since **2006** the National Fish Habitat Partnership (NFHP) has been a partner in

1,065 PROJECTS ACROSS ALL 50 STATES

NFHP projects have improved habitat for many freshwater and inshore fish species of recreational, commercial, cultural and conservation value.

In **2020** the U.S. Fish and Wildlife Service, provided

\$4.3 MILLION

with nongovernmental organizations, state resource agencies

and other partners contributing an additional

\$31.1 million

nearly an 8-to-1 match to fund conservation projects in the U.S.

NFHP works to conserve fish habitat nationwide, leveraging federal, state, tribal, and private funding resources to

ACHIEVE THE GREATEST IMPROVEMENT FOR FISH POPULATIONS THROUGH PRIORITY CONSERVATION PROJECTS

NFHP implements the National Fish Habitat Action Plan and supports **20** Fish Habitat Partnerships with at least one in every state.

14 of our projects in 2020 are focused on conservation of fish habitat in Alaska

NATIONAL FISH HABITAT PARTNERSHIP 2020

www.fishhabitat.org

From **2017-2020** conservation project funding has included

\$14 Million

in funding from the U.S. Fish & Wildlife Service And has been leveraged with nearly

\$93 Million

in non-federal funding.

Our **MISSION** is to **PROTECT, RESTORE** and **ENHANCE** the nation's fish and aquatic communities through partnerships that foster fish habitat conservation and improve the quality of life for the **American** people.

Beyond the Pond is a 501(c)3 non-profit started by the National Fish Habitat Partnership in 2015. Beyond the Pond supports funding needs for our 20 Fish Habitat Partnerships.

A **3rd** edition of the National Fish Habitat Action Plan, the guiding document for the Partnership, is currently under development.

NFHP has also released National Fish Habitat Assessment Reports in **2011** and **2016**.

THROUGH A FISH'S EYE: THE STATUS OF FISH HABITATS IN THE UNITED STATES 2015

This report summarizes the results of an unprecedented nationwide assessment of human effects on fish habitat in the rivers and estuaries of the United States. The assessment assigns a risk of current habitat degradation scores for watersheds and estuaries across the nation and within 14 sub-regions. The results also identify some of the major sources of habitat degradation.
